MESSAGE

I am extremely happy to know that Sanand Industries Association, Sanand is planning to bring out the Diwali Edition of "**Quarterly Magazine Ahmedabad & Gandhinagar**" containing details of all industries situated in and around Sanand Industries Association.

The role of industries will be critical in the journey towards "India at 100", under which we envision the country as the leading economic superpower and a globally preferred manufacturing destination for all key products. The Industrial Infrastructure is developing rapidly in Gujarat, making Gujarat a major connecting hub between the various industrial regions in India and countries across the globe. Gujarat is also emerging as the pioneer State in the area of sustainable development with the industrial estates becoming wonderful examples of sustainable development with negligible impact on environment. I urge the industries located in and around Sanand Industrial Estate to take maximum benefit of this emerging opportunity and contribute to the State's growth.

I am sure this Diwali Edition will provide exhaustive and classified information for the businessmen and will be very useful to the members.

Sanand Industries Association provides multi-faceted services to their members and this attempt will add one more jewel in their crown.

My best wishes to team Sanand Industries Association for undertaking this task.
